IRREGULAR SHAPED STONE SERIES

The irregular shaped stones shown in this series replicate a diverse group of fieldstones and river rocks that are native to the Eastern United States. These stones feature textures forged by millions of years of erosion, and a color palette of rich earthy hues that blend seamlessly with outdoor environments.

All sizes and weights are nominal and may vary slightly depending on profile. Weight is based on one square foot of stone. Contact Coronado for further details

* Stone sizes within panels may vary.

TECHNICAL DATA

Weight: The average packaged weight of Coronado Stone veneer is 8 to 12 lbs. per square foot. Weight varies with thickness.

Non-combustible: Testing on Coronado Stone showed zero flame spread and zero smoke development.

Integral Colors: Coronado's production process results in a product which maintains a natural stone appearance even after many years of exposure to the elements.

Approvals: Coronado Stone has been tested by independent laboratories and has been approved for its intended use by:

Coronado Stone is manufactured to meet or exceed specifications for all major code approvals. Independent testing confirms compliance with ICC-ES AC51 for Precast Stone Veneer. Always check your local building codes before installing stone.

Materials:

- Cement	ASTM C150
- Sand	ASTM C144 or C33
- Aggregate	ASTM C33 or C330
<u>Testing:</u>	
- Shear Bond Test	Tested in accordance with ASTM C482 Greater than 50 psi
- Water Absorption	Tested in accordance with section 3.1.4 & 4.6 of ICC-ES AC51
- Freeze / Thaw	Tested in accordance with ASTM C67 Less than 3% mass loss
- Unit Weight	Shipping weight is less than 15 lbs. per sq. ft. Density is determined in accordance with ASTM C567
- Compressive Strength	Tested in accordance with ASTM C39 Greater than 1800 psi
- Tensile Strength	Tested in accordance with ASTM C190
- Flexural Strength	Tested in accordance with ASTM C348

ACHIEVING LEED AND GREEN BUILDING CERTIFICATION

Coronado Stone Products is dedicated to producing a superior manufactured stone veneer with the least amount of impact to our environment. With a combination of internal recycling techniques, products that increase levels of energy performance and 6 strategically placed facilities throughout the U.S. and Canada, Coronado Stone can help you achieve sustainable solutions for LEED requirements.

LEED Credit Category	LEED Points	Intent	Requirements	Coronado Contribution
EA Credit:1 Energy & Atmosphere: Optimize Energy Performance	2-10	Achieve increasing levels of energy performance above the prerequisite standard to reduce environmental impact associated with excessive energy use.	Demonstrate a percentage improvement in the proposed building performance rating compared to the baseline building performance rating per ASHRAE/IESNA Standard 90.1—2004	Coronado Stone Veneer products can add to the building energy efficiency of exterior walls. Overall efficiency contribution depends on architectural design.
MR Credit:4.1 or 4.2 Materials & Resources: Recycled Content: 10% or Recycled Content: 20%	1-2	Increase demand for building products that incorporate recycled content materials, therefore reducing the impact resulting from extraction and processing of virgin materials.	Use materials with recycled content, such that the sum of post–consumer recycled content plus one–half of the pre–consumer content constitutes at least 20% (based on cost) of the total value of the materials in the project.	Coronado Stone Veneer products can contribute to a project's overall recycled content. Recycled material is used in the production of Coronado's stone veneer which may vary between facilities.
MR Credit:5.1 or 5.2 Materials & Resources: Regional Materials: 10% or Regional Materials: 20%	1-2	Increase demand for building materials and products that are extracted and manufactured within the region, thereby supporting the use of indigenous resources and reducing the environmental impact resulting from transportation.	Use building materials or products that have been extracted, harvested or recovered, as well as manufactured within 500 miles of the project site for a minimum of 20% (based on cost) of the total materials value.	Coronado Stone has 6 strategically placed manufacturing facilities located in the U.S. & Canada which can provide a contribution to this category. (view map on page 116)

SUL DING CON

Coronado Stone Products is Proud to be a Member of the U.S. Green Building Council.

50 YEAR LIMITED WARRANTY

Coronado Stone Products wall veneers are protected under this warranty for a period of 50 years from the date purchased, when used on a vertical structure which conforms to local building codes and when installed in accordance with the manufacturer's instructions. Warranty coverage specifically excludes: damage resulting from structure settlement and other types of wall movement, contact with paint or chemicals, discoloration due to contaminants, staining, oxidation and water damage.

This warranty covers only manufacturing defects in Coronado Stone Products[®] wall veneers and is limited to the replacement or repair of defective materials only and does not cover the cost of removal or installation of defective products. This warranty is limited to the original purchaser and is non-transferable to any subsequent owner.

Santa Barbara - Brookshire (Coursed Pattern)

In 1960, there was only one stone manufactured in California. It was a 2¹/₂ x 4' sheet of concrete which was broken up into random shapes at the job site. Mel Bacon saw the need for something better and started making his own stone. He soon developed the first random shaped stones from individual molds which led to the development of many of today's popular varieties of ledge stones and ashlar patterns.

As a mason, Mel experienced the difficulty of installing stone that was not created with the installer in mind. It was heavy and the shapes and sizes were difficult to piece together. He realized that through proper pattern and mold design, ease of installation could be achieved. From that moment, ease of installation became the benchmark for every pattern of stone Mel created. Easy installation is not only a time saver, it's a project saver.

The pride we take in the creation of our product shows in the quality experience you will enjoy as one of our valued customers. Give Coronado the opportunity to make you a believer. Our mission is your satisfaction!

Coronado manufactures and distributes its high quality stone at six factories conveniently located across North America
